

The Call Logs tab displays Missed, Received and Dialed Calls in chronological order [although the sort order can be changed by clicking on the column header]. The Call logs tab will show the number of missed calls since Unity was last used, as well as any missed calls received while Unity is running, as shown below.

User Status Directories Call Logs(2 Missed) My status: available in office

Directory name: Common phone list [dropdown] [input field] [search icon]

Double click any entry to make a call to that number, or right click to add the number to your personal directory.
